Abstract

lala

1. Introduction

problem statement mostly

2. Related Work

what have others done ?

3. ETH Voxnet or Aproach

What have we done and how or code and stuff

3.1. Implementation

python shit. Why keras/not TensorFlow

3.2. Setup

Server

4. Results

nice pics and tables of results[?]

5. Conclusion

What have we done and how or code and stuff[?]
